Founded in 2006, Xen Media has been operating for years to provide innovative, effective, and powerful marketing and advertising strategies in today's digital world. What started out as merely a Digital Signage & Media Company has grown to encompass a broader range of services to better fit the demands of the ever-changing technological society. Better yet, Xen Media continues to provide a one-stop solution for any digital board needs. Our team of skilled, creative design professionals uses world-class hardware for the digital menu board system, as well as innovative software, to deliver state-of-the-art content and efficient operation.
